- 8.30 – Opening Competition Centre at The Coque Sports and Culture Centre, Luxembourg
- 9.45 – 11.15 Urban sprint race 1 at Plateau Kirchberg (Coque)
- 12.00 – 13.30 Urban sprint race 2 at Plateau Kirchberg (Coque)

## **Courses and classes**

**Saturday 20 October**

**Competition classes**

- D-10, D11-12, D13-14, D15-18, D19-34 (Elite), D35-44, D45-54, D55-64, D65+
- H-10, H11-12, H13-14, H15-18, H19-34 (Elite), H35-44, H45-54, H55-64, H65+

The lengths of all the courses for the Sprint prologue will be set to target a winner's time of less than 15 minutes, and between 25 and 40 minutes for the subsequent Middle distance race – for example, the H19-34 courses will have an optimum route distance of about 2.0km for the sprint prologue, and about 5.5 km for the Middle distance race.

Adults may “shadow” children on the D-10, D11-12, H-10, or H11-12 courses, so long as they do not run their own race afterwards. For these classes, start times will not be allocated before the race.

More precise details of course lengths, climb, and number of controls will be given in the Final Information.

Start times will be allocated, and published on the website on or before Thursday 18 October 2018.

**Other classes**

- Open Long, Open Short

These courses will have an optimum route distance of about 0.7km and 2.0km (Open Short) / about 1.1km and 2.7km (Open Long), both offering a moderate degree of technical challenge. The Open courses are primarily aimed at newcomers to the sport and others, entering on the day.

For open classes, start times will not be allocated before the race.

## **Sunday 21 October 2018**

### **Deutsche Parktour competition classes**

- D13-14, D15-18, D19-34 (Elite), D35-44, D45-54, D55-64, D65+
- H13-14, H15-18, H19-34 (Elite), H35-44, H45-54, H55-64, D65+

The lengths of all the courses, for each of the urban sprint races, will be set to target a winner's time of between 15 and 20 minutes – for example, each of the H19-34 courses will thus have an optimum route distance of about 3.5km.

More precise details of course lengths, climb, and number of controls will be given in the Final Information.

Start times will be allocated, and published on the website on or before Thursday 18 October.

Only participants belonging to German clubs can be ranked for the Deutsche Park Tour. All starters will however be classified in the results for the day.

### **Other classes**

- D-10, D11-12
- H-10, H11-12

Each course will have an optimum route distance of 1.0 - 1.3km, and will be technically suitable for young children. Adults may “shadow” children, so long as they do not run their own race afterwards.

- Open Long, Open Short

These courses will have an optimum route distance of 1.4 - 1.6km (Open Short) / 2.4 - 2.7km (Open Long), both offering a moderate degree of technical challenge. The Open courses are primarily aimed at newcomers to the sport and others, entering on the day.

For all non-Deutsche Park Tour competition classes, start times will **not** be allocated before the race – participants will be given start times at the start area.

## Timing system

The SPORTident system will be used on both days with (combined) contactless AIR+ mode enabled.

For the **Saturday** races in Trier, participants will use their own SI timing unit (standard SI, or SIAC), or hire a standard SI unit on the day from the organisers (EUR 2 rental fee / EUR 30 deposit). There will be no SIACs rentable on Saturday.

For both the **Sunday** races in Luxembourg, each participant will be loaned one of the latest SPORTident Active Cards – the **SIAC**. For more information see <https://www.sportident.com/siac2016> . Participants will **not be allowed** to use any SIAC that they already own.

Each participant (n.b. no collection by one person for a whole club), whether pre-entered or entering on the day, will need to register at the Sunday event base before running, in order to collect the loaned SIAC that they will use. All SIACs will be returned at the download station immediately after finishing the second race. **Any participant not returning (at the Competition Centre) the SIAC lent to them, will be invoiced a EUR 70 charge.**

The organising clubs gratefully acknowledge the considerable support being provided by [SPORTident Benelux](#), who are lending without charge the SIACs and base stations that you will be using.

Also, five lucky entrants to the Deutsche Park Tour races will win a spot prize of a refund of their entry fee for the Sunday races. Find out if your SIAC has a lucky number, when collecting it on registration!

## Entry process

Participants wishing to compete in any of the Deutsche Park Tour competition classes at the Sunday event are strongly recommended to pre-enter for the Weekend. Entries for other classes can also be made on the day.

The pre-entry systems will be open to accept entries as from Saturday 1 September. The closing **deadline** for pre-entries to be accepted will be 23.59 on **Saturday 13 October**, and anyone wishing to enter after that time must enter on the day.

For the Sunday event, there is an **upper limit** to the total number of pre-entries that can be accepted of **320**, so early entry is advised.

Entries will also be accepted on the day, including for the Deutsche Park Tour competition classes at the Sunday event. This is conditional on stocks of pre-printed maps and/or SIACs for loan still being available. The organisers of the Sunday event thus cannot guarantee that all

entries on the day can be accepted, but will do all they can to allow participation.

Pre-entries for each of the days' events of the Weekend are to be made separately.

**German participants** must use the **O-Manager** system to pre-enter:

- Saturday: [https://omanager.orientierungslauf.de/service/f?p=105:7:::NO::P7\\_ID:5369](https://omanager.orientierungslauf.de/service/f?p=105:7:::NO::P7_ID:5369)
- Sunday: [https://omanager.orientierungslauf.de/service/f?p=105:7:::NO::P7\\_ID:6145](https://omanager.orientierungslauf.de/service/f?p=105:7:::NO::P7_ID:6145)

**All other participants** should pre-enter using the **OrienteeringOnline** system. Intending participants who have not used this system before will need to create a brief profile before proceeding.
